

Be in Charge of Your Day

Our “Virtual Rep” puts you in the driver’s seat
Get Pharma to get you one.

85% of physicians would try new “virtual service” technology to access sales reps.

The Switton is a small, sophisticated device engineered to allow for immediate ordering or requests from Physicians. With 4 programmable buttons, it is multifunctional and customizable.

Designed with convenience in mind, this revolutionary new device is endlessly customizable, remotely accessible, to facilitate orders in a controlled, logical fashion. The requests go straight to Pharma, and you receive samples (and visits!) when YOU want.

Why Swittons for Physicians:

- Be in control of your schedule
- Access your Pharma reps when you need to, not when they show up unannounced
- 4 clickable buttons, programmed with your frequent needs
- Automate requests
- Reduces inconvenient visits
- Customizable buttons - want something else on a button? You got it.

You click. Pharma is notified. You get what you need. On your schedule.

Just click a button.

Designed with convenience in mind,
this revolutionary new device is
endlessly customizable, remotely
accessible, to facilitate your requests.

When you want.

Want one? Ask your Pharma Reps for it.
